EDUCATIONAL NOTICE.

In supersession of the Notice published in Part IC of the Calcutta Gazettes of 23rd and 30th March and of 6th and 18th April 1910.

With reference to Government Notification No. 4305, dated 23rd November 1909, in which detailed information was published as to the text-books required in accordance with the new syllabuses for Standards III to VI, writers of arithmetic books are requested to be good enough to provide a table in the beginning of their books giving the vernacular equivalents of the English numerals :-

0, 1, 2, etc., 9.

2. The provision of such a table is rendered necessary in consideration of the possibility that the employment of English figures prescribed in the main arithmetic syllabus which will be applicable to all classes of schools, -high, middle and upper primary-might otherwise constitute a difficulty in purely vernacular schools.

3. In this connexion it may be pointed out that while the use of English figures is prescribed in the main syllabus the vernacular notation will be used in the additional

Subhankari syllabus to be taught in middle vernacular and upper primary schools.
